

- 
Easy film removal in 5-7 Days
Of Application
- 
Shake it well and lightly spray
on the surface.
- 
Wipe the surface clean using a light
circular motion.
- 
Please open the roll immediately.
Do not pressurize while opening roll.

CARE OF LAMINATES

- You are in the right hands!
- Excluzio Akrilik are manufactured with aesthetics and durability in mind. when used as recommended, our laminates will last through the years. Excluzio Akrilik are easy to maintain. We design our sheets using the Typical internationally recognized technical standards.
- To remove more stubborn stains, use mild household cleansers, gently wipe down with a non-abrasive cloth.
- Avoid the use of abrasive liquid cleansers, bleaching compounds or solution as these may damage the surface of the Akrilik sheets.
- Do not place hot cookware directly on the laminate. Prolonged exposure to temperatures above 30 degree Celsius may cause damage to the laminate surface.
- UV rays may reshape the laminate. Avoid outdoor applications.
- Have a thickness balance of +/- 10%

ABOUT WARRANTY

- Avoid air bubbles or waves after application:
- Never mix water to adhesive. Use only water based adhesive.
- Surface must be even.
- Uncertain and frequently changing weather may cause laminates to absorb moisture and loose it again resulting in air bubbles.
- If Akrilik Laminates of size more than 8*2* are used in paneling, they may end up having air bubbles.
- Lack of the time given to pressing leads to having air bubbles.
- Akrilik sheets should be kept evenly straight. If the sheets are in roll form, It should be kept straight for minimum
- 48 hours and then can be pressed for better results.
